

## Schede di Sicurezza per prodotti per lo Screening dei Donatori

Gentile Cliente,

Ortho Clinical Diagnostics (OCD) fornisce le Schede di Sicurezza (SDS) per tutti i prodotti OCD che contengono sostanze pericolose ad una concentrazione pari o superiore alle soglie stabilite.

Nelle normali condizioni di utilizzo, questi prodotti non dovrebbero esporre l'utilizzatore ad un rischio chimico. In ogni caso, dal momento che alcuni di essi possono contenere materiale biologico, si raccomanda l'osservanza di precauzioni standard nella manipolazione degli stessi.

L'elenco di prodotti Ortho Clinical Diagnostics o distribuiti da OCD evidenzia se un prodotto prevede una SDS oppure se il prodotto è esente e non prevede un SDS.

- I prodotti che riportano SI nella prima Colonna dell'elenco prevedono una SDS. La SDS può essere reperita sul sito [www.orthoclinical.com](http://www.orthoclinical.com) oppure sul sito di riferimento del fabbricante. Cliccare sul link MSDS Library nell'angolo destro della pagina, selezionare il tuo paese, e poi seguire le indicazioni per ottenere i documenti di cui ha bisogno. Stampare la SDS a scopo documentale.
- I prodotti che riportano NO nella prima Colonna dell'elenco non prevedono una SDS. Stampare questa lettera di esenzione e conservarla come evidenza che una SDS non è richiesta.

Per maggiori informazioni su questi prodotti, fare riferimento all'insero contenuto nella confezione oppure alle Istruzioni per l'Uso (IFU).

Si raccomanda di conservare questa lettera insieme alle Schede di Sicurezza a scopo documentale.

Vi ringraziamo per il continuo supporto ai prodotti Ortho Clinical Diagnostics.
